WASTE OF THE PUBLIC MONEY Among the private "expenses to the Treasury," that of the book publication business is perhaps the broadest It was always an expensive one to the people, but has of late years been alarmingly enlarged and "improved" The cost of printing public documents has been enough in all conscience—but the engraving and "illustrating" branches have recently "branched" out, until the Treasury is in danger of being swamped in a bottomless sea of extravagance and of outrageous charging As faint specimens of what is done in this picture line in one department, we cite what is reported at Washington in regard to a few of the fancy pictures in a recent Patent Office Report In the House edition a horse cost $10 576; a strawberry, $10 176, a sheep $10 576, a map, $3 807. For the Senate edition the same pictures cost $5 879

In the face of these disclosures (says the "States") which were the subject of general ridicule, in and out of Congress, the person in charge of preparing the agricultural report for publication, used all the arguments in his power to have a second edition of a horse, a tea plant, and a map, inserted in colors, in the report just published, which, at the price stated by a Mr S celsior for their execution, in his voluntary card, published in the Union a few days since, (including paper and inserting plates,) would have cost $33,193

THE MASSACRE OF CAWNPORE It has been ascertained that the first account of the manner in which the two hundred European women and children were butchered at Cawnpore by the orders of that monster Nana Sahib, was essentially incorrect—being in great part a fiction which supplied by an ambitious writer for the press Late advices, however, speak of a half caste musician named Fitchett, who was at Cawnpore when the mutiny occurred, and saving his life by turning Mahometan, was taken into the service of the rebels, and had opportunity to know how the massacre was perpetrated He has recently returned to the English service, at Meerut,—and, according to the London Times, gives the following account

He remained in Cawnpore, and was enrolled in the Nana's force with which he did duty On the afternoon of the 15 h of June, when it became known that the British were advancing, a council of war, or of delinquents, was held at the Nana, at which it was resolved that the women and children at Bibeeghur, numbering about 200 were to be murdered The news spread rapidly through the town, and the mutinous 6th Native Infantry seeking their share proceeded to take from our unfortunate country women any articles of value or ornaments which they retained on their persons When the Nana heard of this he was very much displeased and issued strict orders to surround the house and permit no one to enter but the executioners

There was some difficulty about getting instruments for this horrid butchery The Sowars refused to save themselves from the excitement of blood—the infantry were equally averse to the task—but at last some soldiers of the No 2 Native Infantry were compelled to go in with orders to hew in the poor helpless crowd They hired in the air or did so little harm that it was evident the views of the assassins did not accommodated in that manner They went into the town, therefore, and with Nana's troops cut two of the common butchers of the bazar—two Bhoodeeahs, a man of a mild miserable gipsy like caste, and a village who were armed with hatchets and knives and ordered to go in and kill every soul the house and precincts surrounded The soldiers grumbled but they

WASHINGTON, Jan. 16.

SENATE—Mr Fitzpatrick of Ala, presented a memorial for a line of mail steamers from New Orleans and Mobile to various ports in the Gulf of Mexico. Referred.

Mr Hunter of Va, called for the yeas and nays on the resolution to pay $160 for the funeral expenses and a salary of Morton, the deceased furnace keeper. It was carried 32 to 17.

Capt Hartstein was allowed 2008 extra expenses in the matter of the Arctic discovery bark Resolute by a unanimous resolution.

Considerable time was occupied in a discussion whether the Senate would take up the bill to make a railroad along Pennsylvania Avenue, Washington City.

Mr Wilson introduced a resolution of inquiry, calling on the Secretary of the Navy to furnish the details of all the live oak contracts made for the Navy.

The Pacific Railroad Bill coming up as the special order, another discussion arose whether it or the private calendar should be taken up. The yeas and nays resulted in favor of the former.

A vote was then taken on Mr Ligler's amendment to limit the road between the 37th and 43d parallels of latitude, which was lost, nays 25 yeas 19.

Mr Chandler of Mich spoke strongly against the bill, after which Mr Wilson's amendment, providing for the appointment of a commission to locate the road between the 35th and 43d parallel, and for being built by the general government, was voted on and lost, 31 against 23.

The bill was debated all day and overloaded with amendments, and was left in this condition when the hour of adjournment arrived.

Messrs Ligler and Wilson offered modifications, the object of both Senators being to provide for the completion of the most easterly and direct portion of the road, although they differed respecting the details.

In the course of the discussion Mr Doolittle submitted an amendment providing that any contract made by the President be submitted by him to Congress and take effect only by joint resolution.

Finally a motion to re commit the bill was lost by 29 against 23, and now her Mr Iverson, to lay it on the table was also lost by 29 agst 27

The extension of any road had united with a few of its friends and rejected the amendment to limit the line of the road to a central route between the parallels of 34 and 43 thus leaving to the President, not to the contractors as some supposed, the location of the route. A majority of the friends of a Pacific Railroad would never give such discretion to the President after the experience we have had in the location of the Overland mail route.

Mr Thompson of Ky, also opposed leaving the location of the route to the President — He did not disguise his opinion that the Pacific Railroad a home was a magnificent humbug.

The Senate then discussed for an hour a proposal to adjourn till monday Mr Brown protesting against the waste of time, and Mr Sebastian indicating that a recess to-morrow would advance the public business. The proposal was agreed to and the Senate adjourned till Monday 4

HOUSE—On motion of Mr Kunkel of Pa, the Secretary of the Navy was requested to furnish a statement of the amount of coal used by the navy since 1852, what commission have been paid to coal agents and by what authority such officers have been appointed.

The Select Committee to investigate the accounts of Mr Seaman the late superintendent of Public Printing, was authorized to employ a stenographer as was also the Committee on the Judiciary to aid in the examination of the charges against Judge Irwin. Reports were submitted from various committees, after which the private calendar was considered.

The Senate resolution authorizing Town send Harris and his interpreter, Mr Brisane to receive presents from Queen Victoria was passed. Adjourned.

WASHINGTON, 14th.

The Postmaster General, in reply to the resolution of the Senate inquiring whether the department can be made self sustaining, says that in no case has the existing service been raised to a higher grade, or more frequent mails been granted than the increased growth and business of the cities and settlements through which they pass, seemed fairly entitled to. It is evident by a diminution of the service, the self sustaining of the department can unquestionably be secured, but it is worthy of much consideration whether that would not leave the mere skeleton of a posts service commencement, with neither business nor the social wants of the country.

The Post Master General states that under the postage law of 1845 the revenue and expenditures were about equal, but since the law of 1851 the expenditures have been regularly and largely increased The suggests that if Congress is determined to make the Department self sustaining the surest means is to return to the law of 1845 Hence he favors the passage of a bill introduced into the Senate at a former session This together with his suggestive amendment in regard to the mode of inviting proposals for for carrying the mails, and substituting postage stamps for the franking privilege, will render the department self-sustaining in all that relates to the regular and proper operations.

The House Committee on Territories to-day ordered that the bill for the organization of Arizona be reported with the boundaries asked for by the people of the Territory through Lieut Mowry, viz, all the territory south of the parallel of lat 33 degrees 40 minutes north from Texas to the Colorado of the West. The new Territory will contain about 100,000 square miles and leaving in new Mexico about 130 000 population. Arizona will be represented by about 10 000.

The House Committee on Foreign Affairs to-day agreed to report a bill similar to that of Senator Slidell's. It proposes to place in the hands of the President $30,000,000 to negotiate for the purchase of Cuba. The vote on favor of the measure was 6 against 3

There will be a minority as well as majority report, at least 12 or 14 Republicans in the House will vote for the Senate bill for the admission of Oregon into the Union and oppose all efforts to cramming its passage.

Three mails from New Orleans and several intermediate points were received this evening but they bring no news of special importance.

Aroostook Railroad.

At the meeting held in Bangor upon the return of the Editorial corps from Aroostook to determine the best mode of accomplishing the enterprise of constructing a railroad to that county, a committee was appointed, consisting of Elijah L Hamlin Wm A Blake, Isaiah Stetson, R S Prescott, Samuel Larrabee Wm. H Mills, and Abiah in Woodard authorized to receive such propositions as might be offered and make such disposition of the subject as in their opinion might the most certainly ensure the great object of the meeting

The B O & M R R Co who already own a road thirteen miles in length, embracing a bridge at Oldtown across the Penobscot river, with depots, furniture and appurtenances of a good road, have made to said committee the following proposition, which on their part they are ready to perform, if accepted

The said Company propose that the State shall loan their credit to a reasonable amount, to build a road from Mattawamkeag to some practicable point in Aroostook county or railroad thereof, to appropriate the public lands or the proceeds thereof for that purpose In case of the latter course being determined on, the following plan is proposed to make the lands available to that end The lands shall be put at the price of 25 cents per acre, with the condition that if the railroad is built the purchaser shall pay 50 cents per acre instead of 25

In order to ensure fairness in the distribution, every town in the State shall be allowed to take proportion of the lands according to its ratio of inhabitants paying State tax at such time from one to twenty five years, as the Legislature may determine, with interest annually. The conveyance may be taken by the town, or they may assign their right to do so to such of their citizens or others as they may see fit. If within one year the town does not elect to take the lands thus falling to their share, the Governor and Council may sell the same to such person or corporation on such conditions, and for such price and terms as they may think proper, the right of selling any of said lands in all cases to be subject to the limitation that no lands suitable for settlement at all be sold to any but actual settlers The several towns to be authorized to purchase such lands, and to hold or sell the same, and to loan the proceeds thereof, not exceeding $200 to any one person, if such, as they may choose, so that if the town wishes to assist any of their citizens to a home in the new territory, they shall have the power to do so on whatever terms they may think proper

After the town has elected in vote to take the lands and notified the Land Agent thereof the Selectmen, or such other persons as the town may authorize may issue scrip or warrants to whomever they please, certifying their right to receive the number of acres specified therein, which scrip or warrant shall entitle the holder to a deed from said Agent of the number of acres specified upon performance of such settling duties as the Legislature may prescribe to secure the object of settlement said lands to be reserved from sale of the public lands not then already appropriated or taken up In this way all parts of the State may be made equally the recipients of the State favor, and its citizens in all parts have an equal chance to gain a home in the territory thus thrown open for settlement

The public lands thus appropriated for the purpose of extending the road from Mattawamkeag to Aroostook, are regarded by this Company as ample security for the building and equipping of that portion of the whole road which they also retained upon the road and equipments for and further expense in the matter Contracts for building and equipping the road to be made with the Governor and Council and they are to have the general superintendence of the whole work and the use of the whole of said road to be in the State subject only to the said lien

The road from Mattawamkeag to Aroostook being thus provided for it is proposed to build and equip the road from Milford to Mattawamkeag and Brownsville by individual subscription, aided by a pledge of the credit of the City of Bangor for a sum not to exceed $10 000 per mile

After the State canal have appropriated the lands as aforesaid, to build the road from Mattawamkeag to Aroostook, the Company undertaking to build the road shall give a deposit with the Governor and Council ample security to their satisfaction, that they will build and fully equip the road to Mattawamkeag and the same to connect with like miles at Bangor so that the City shall have an equal number of land upon the road all completed and equipped for the amount of their credit loaned the same not to exceed $10,000 per mile The road to be built by the end, the City to retain the title to the road thus to be built with all the furniture and appurtenances thereof the above conditions as to security, to have the payments thus deposited with the Governor and Council, the whole to be held by the City until they are fully paid and indemnified

Either of the several railroad Companies already chartered, viz: Penobscot, the Calais & Maine R., South American & European Penobscot Bangor & Milford Trust Companies to have the privilege of taking the said contract and building, and made whichever will do the same for the least sum, and give the required security as aforesaid

If the contract should be assigned to the B O & M R R Co they will further offer to the people themselves to give as such security their whole road from Bangor to Milford together with the Bridge at Oldtown with all their depots furniture and appurtenances, and all the no route north earnings of the road to be applied

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is water proof thus is remedied. By the application of this preservature, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Ancaustic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLENN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr Kent, Assayer of the U S. Mint Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices,

Bank Checks—35 cts per lb
Bank Bills—$10 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts per lb
Sight and Time Drafts—$25 for 1000 sheets
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb
Bonds and Mortgages—40 cts per lb
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington under the Act of 1837,)
70 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to procure Patents in the United States, also, in Great Britain, France, and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not, immeasurably superior to, any which can be offered them elsewhere The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors

TESTIMONIALS

"I regard Mr. Eddy as one of the most capable and excerpted practitioners with whom I have had official intercourse CHAS. MASON,"
Commissioner of Patents.

"I have pleasure in assuring inventors that they can confidently put a person more competent and trustworthy, and who is capable of putting their applications in a form to secure to them an early and favorable consideration at the Patent Office EDMUND BURKE
Late Commissioner of Patents
Boston Feb'y 8 1858."

Mr R H Eddy has made for me THIRTEEN applications all but one of which patents have been granted, and that is now pending Such unmistakable proofs of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges JOHN TAGGART."

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on record rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents
